INTORDUCING NEW GABTIC AIR FILTERS FAMILY

Innovate the air you breathe. Gabtic's commitment to pioneering technologies pushes the boundaries of air purification. We don't simply filter; we redefine the very essence of clean air, ushering in a new era of healthy living.

Welcome to the future of air. Gabtic's new line of air filters is more than just a product; it's a statement. A statement about prioritizing your health, embracing innovation, and living with the confidence that every breath is a pure expression of life.

FEATURES

- Lightweight & Easy To Install
- High Dust Holding Capacity & long Service life
- Standard Sizes

Lightweight

Efficiency

Standard sizes

SPECIFICATIONS

GABAIR filters are widely used in commercial and industrial HVAC Systems to protect the heat transfer coils from becoming coated with dust and lint. They are also used as pre filters to higher efficiency filters for IAQ improvement in city centre buildings as well as shopping malls and other public buildings like hotels, commercial offices and factories for Food & Beverages etc..

GABAIR filters are ideally suited for installation where high-moisture conditions exist. Lightweight construction makes them easy to handle, install.

GABAIR filters are constructed with double wall, die-cut box, moisture resistant beverage board frame. The media is bonded inside the frame at all points of contact, providing a sturdy, reliable construction that does not rack or deteriorate under difficult operating conditions.

FILTER USAGE AND HIGHLIGHTS

Innovate the air you breathe. Gabtic's commitment to pioneering technologies pushes the boundaries of air purification. We don't simply filter; we redefine the very essence of clean air, ushering in a new era of healthy living. Welcome to the future of air. Gabtic's new line of air filters is more than just a product; it's a statement. A statement about prioritizing your health, embracing innovation, and living with the confidence that every breath is a pure expression of life.

APPLICATION :	Prefilter for air conditioning systems.
FRAME :	Rigid water resistant cardboard.
MEDIA :	Synthetic.
MAX TEMPERATURE (°C) :	90°C
RELATIVE HUMIDITY MAX :	100%
INSTALLATION OPTIONS :	Front and side access housings and frames are available.

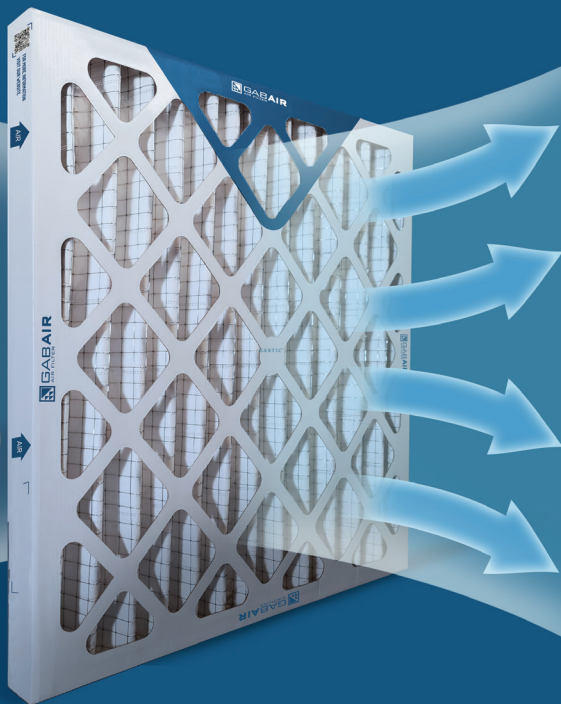

SIZES
